Ran into Ed Moorehead today again; he is that fellow who worked on the 3rd floor of City Hall for a while. A nice guy. His radio is still in City Hall; I told him I would pick it up & put it in my car & give it to him the next time I came to Lakeland.

I am becoming known at Lakeland. Three or four of the "cool" tenth graders are very friendly. It is very amusing. They are: Joe Vadala
Mike Pittsman
Tom Pawlowski
Kenny Liuzzo

I - Admin. Assignment - Hall duty - 4 corners - monitor door.

Periodic Review
Curriculum Study

"Appointment in Lady" } two films that are to be shown
"Generation of the Land" } on A, B, C, & D.

During A period there was not enough time to show both films, primarily because there was a certain amount of learning how & use the projector on my part; the students, of course, were very helpful. My choice of films proved most of my day therein.

Both films are interesting; "Appointment in Lady" is very good documentary; the "Land" film is very stirring - Colonial precedent, pioneer, modern farmers & change. The Love Affair was the last. No film is a substitute for the American farmer & there is a strong emphasis on modern farming.

I have now settled into a Lakeland routine and the whole lot of an delegated & how learns how & use a film projector: another item for my resume'; as & part

Curiously - as I was walking down the hall two just a few minutes ago, I heard one of the students say: "Here goes Mr. Lincoln" [Lincoln]." Apparently I do have much in common with Abraham Lincoln & appearance & perhaps & manner capitalize on it & the maximum. Ran into one of Bernie's boys 4-H boys -- a Jennifer Hackett, & believe his name. Certainly I will hear about the Chess meeting from Bernie shortly.

Perhaps I should go by Mrs. Pond's room and introduce myself? Well, maybe later on in the day. At 11AM I had the study hall next & Mrs. Bond's room and I want to introduce myself; keep friendly; quite young also.
